The grade I house and parkland were analysed and possibilities explored, to establish the feasibility of future development for Stover School. The art building was the first housing the school's art and media classrooms.

They demonstrate the potential for light, modern architecture to sit appropriately in an historic

setting while making its own positive contribution.

Client: Stover School  
 Contractor: Mike Stacey Ltd  
 Date: 2001  
 Value: £ 350,000  
 Awards: Civic Trust Mention 2003
