

MILL BARN

STOCKLAND-BRISTOL, SOMERSET

2 Repair and conversion of a 19thc barn into a house.

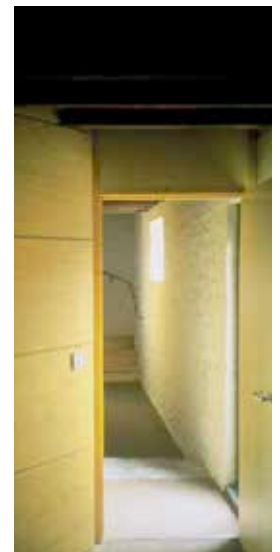

The main living spaces are on the first floor, within the roof space, to take advantage of the view from the old loading door. The bedrooms and bathroom were enclosed by the old walls on the ground.

Independent elements were inserted into the

3 original shell, such as the ground floor timber walls, and the core for the stair, study and fire place.

Client: Private
Contractor: Watts & Attwood
